

DRIGGS COMMUNITY GARDEN

WHO

We are a group of local volunteers in partnership with the City of Driggs. The organization so far has been based on creativity and networking. As more people get involved and contribute ideas and resources, the garden will continue to evolve.

WHAT

The Driggs Community Garden is a space open to the public in which individuals, businesses, and organizations may sign up to use up to 4- 25 square foot garden plots. Garden plots are prepared with rich organic soil and have automatic irrigation.

We welcome school programs, summer camps, daycares, and home schooled children to get involved. The garden will have 2- 3 group gardening sessions per week where anyone is welcome to volunteer, speak with other gardeners, see what's growing, or just enjoy the day. The first group workday is on June 1st.

WHERE

Our garden is located at the south end of Lion's Park off of Teton Ave.

HELP OUR GARDEN GROW

Sponsorship Opportunities for 2013 Season

After a successful first year of gardening – thanks to support from the community – the Community Garden has succeeded in making homegrown, organic vegetable gardening available to a wide cross section of the community. We have great plans in place for the 2013 season and we need the support of the whole community! Our ongoing costs include topsoil, irrigation system upgrades, tools, educational programming, flowers and shrubs for garden aesthetics, etc. We appreciate both in-kind and direct financial contributions.

Bountiful Level - \$500*

Harvest Level - \$100*

Green Thumb Level - \$50

Sprout Level - \$20

***Bountiful and Harvest Level sponsors will receive logo recognition on the garden bulletin board, the garden website and facebook, all our flyers, and in all email communications.**

Thank you!
